

I live in San Diego county and have been listening to K-LOVE (100.1 FM) for 8 years. I have been a financial support for 7 of those 8 years. I know how important it is to have clean, family-friendly radio available in our area. I personally don't enjoy waking up to Howard Stern and the like, who bring ugliness and garbage when they are on the radio. So if K-LOVE is taken off the air what replaces it? More unhealthy junk? If there weren't stations like K-LOVE many of people I know would be lost as they seek the wholesomeness provided by K-LOVE. I am not sure that I would continue listening to the radio if I could not listen to K-LOVE and AIR1 Radio.
